

TECHNICAL DATA

|                         |                                                                |
|-------------------------|----------------------------------------------------------------|
| Assembly                | with 3 screws M6, after preparing mounting holes in the column |
| Application             | aluminium columns with spigot endings Ø60 i Ø76 mm             |
| Colour                  | Green                                                          |
| Ingress protection      | IP 44                                                          |
| Material                | PMMA                                                           |
| Input voltage frequency | 50/60Hz                                                        |

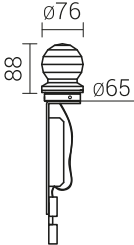

| Symbol     | LED power | Luminaire power consumption | Mounting diameter | Net weight |
|------------|-----------|-----------------------------|-------------------|------------|
| Light ball | 1 W       | 1.2 W                       | 60 mm             | 0.4 kg     |
